## PROFILE

Young graduate in Computer Engineering, with a specialization in Software Engineering, equipped with a strong foundation in software development, application design, and IT project management. In addition to my proficiency in programming languages such as Java and Python, I have acquired cross-functional skills in survey data collection (using tools like KoboToolbox) and graphic design (mastery of tools like Adobe Photoshop, Illustrator, and Canva). Passionate about technological innovation and creating efficient software solutions, I am seeking my first position as a software developer or data analyst to apply my technical skills and contribute to innovative projects.

## WORK EXPERIENCE

### Internship at the Ministry of Finance and Budget of Chad 2023-2024

#### IT Systems Assistant

- Implementation of an Electronic Archiving Application for Employee Records at the Information Systems Directorate
- Software Maintenance (Operating System Installation, Configuration, etc.)

### Trainer at Koughis-Tech

2023-2024

- Training over 60 young people in the field of survey data collection using the Kobocollect/Kobotoolbox tool

### CERTIFICATES

2023-2024

- Information Management in the Humanitarian Landscape

Organized by the Global Nutrition Cluster and UNICEF.

- Individual Safety and Security (IRC)

Organized by the Humanitarian Leadership Academy on the Kaya platform.

- Monitoring and Evaluation of a Development Project

Organized by AFD (French Development Agency)
